

### **Neck Pain & Digital Intervention: Peer Feedback Session on an SNSF Ambizione Proposal**

This session features a draft of an SNSF Ambizione project proposal by Dr. Andrea Aegerter, planned for submission in November. The project focuses on digital interventions for neck pain. Dr. Aegerter will present the main idea and scope of the project. The primary aim is to gather constructive peer feedback to improve and refine the proposal prior to submission. Participant insights will be valuable in enhancing the quality and impact of the application.
