

Detail from "Pedigree of Man" in Ernst Haeckel, *The Evolution of Man* (1879)

Format and Objectives

There will be no individual presentations.

Session I: In-depth (re)introduction to *Cache* format. Full-group discussion of *all* contributions: commonalities, discoveries, possible arrangement into the four proposed themes (or more/different ones). Which themes/topics are over-/underrepresented? All images will be available for digital projection and discussion. Goals: make progress toward an arrangement of the entries, propose ideas for section introductions, identify gaps and propose further commissions.

Session II: Small-group critique of contributions. In-depth reconsideration of discussions during Session I. Groups and assigned texts will be announced on the day of the workshop. Each group will have a moderator and scribe(s). Goal: propose revisions to individual entries with the aim of strengthening resonances with respect to other entries and to the thematic arrangement.

Session III: Full-group summary of results from the workshop. Share ideas for one's own revisions. Goals: settle on arrangement of all contributions, generate material for section introductions, identify gaps, suggest further commissions.

November 3

Arrival team Lübeck. Accommodations: Hotel Wilden Mann (Bahnhofstrasse 30)

November 4 Univ. Lucerne, Room 3.B48

10:00-12:30 Organizational meeting (*group leaders, coordinator; Marianne's office*)
