

Nicole Baumberger und Sina Tannebaum:

„It is an experience we will never forget!“ - „These unforgettable impressions will remain!“

How we would describe the European Law Moot Court:

Even if the participation takes up an enormous amount of work, it is an experience we will never forget!

We learnt how to deal with a complex case in just six months, from the first reading until the court hearing. This included drafting a correct formal legal pleading and an intensive examination of European Law which, after the qualification to the Regional Final, was concluded with the representation of all our results in front of a bench of judges. The challenge to plead in two foreign languages improved our language skills. These unforgettable impressions will remain!

The European Law Moot Court has changed our life!
