General impression Please describe your stay in 4-5 sentences	My impression is very positive under different points of view: welcoming, attention from professors , University staff and my personal mentor. My exchange was a great experience not only of study, but also of life: I guess the Erasmus Project should really be supported and promoted.
Entry/ arrival in Switzerland Immigration formalities, visa	I did not need the visa because I am an Italian national. I went to the immigration office in Emmenbrucke within two weeks since my arrival in Switzerland.
Searching for rooms/ accommodation Experiences and useful addresses	The University provided me an accommodation in Emmenbrucke. I did not know about the accommodation in Steinhof.
Public transportation Train, bus, accessibility of university buildings	I bought the monthly pass and the half-price card.
Prearrangements Registration for courses, language tests, academic records	At the beginning, it was unclear for me how to subscribe to the mailing list. Finally I managed to do it thanks to my colleagues.
Information on university Location, size, infrastructure	I find the University premise very functional, well organized and clean. Every space was of the right size to guest all the students.
Studying at the university Content of lectures, credits, assessments	The courses I have chosen were very interesting compelling and stimulating, interactive and very different from my Italian courses The professors were always very prepared, available and kind.
Assistance at the university Student advisors, Mobility Office, mentors, contact with other students	Every member of the staff was extremely available and kind, and they always provided us with assistance every time we needed.
Budgeting Living costs, study material, money transfer	I really felt the cost of living here more in every-day life (food shop, private medical visit...), than for the study material.
Living/ leisure Meeting places, sports, culture	I think all the sports courses provided by the University were a great opportunity to meet people and training. The University excursion were all very nice and pleasant.
Comparison What is better/ worse at the University of Lucerne compared to your home university?	I really appreciate the teaching method and how the courses are led. I really liked the attention for us exchange students.
