General impression Please describe your stay in 4-5 sentences	My stay at the University of Lucerne was something I would not want to have missed. The four month stay was incredibly fun and a very good learning experience both in and out of school
Entry/ arrival in Switzerland Immigration formalities, visa	If EU citizen quite easy, there are a couple of fees that can seem a bit high, but other than that it was fine
Searching for rooms/ accommodation Experiences and useful addresses	We got accommodation possibilities from the Uni, but since they were fully booked, I was given information to another place to stay which was fine, but try to get into the accommodations provided by the Uni
Public transportation Train, bus, accessibility of university buildings	Fairly easy to navigate around, although a bit expensive. The Uni is located right next to the central station, so very easy to get to
Prearrangements Registration for courses, language tests, academic records	Didn't require a lot of work as a EU citizen
Information on university Location, size, infrastructure	Got send a folder before arriving which contained the necessary information
German course at the university „German Short Course“ visited? Content of course, usage	A good way to meet other students, but didn't pick up any german language, except for small key words
Studying at the university Content of lectures, credits, assessments	Variety of English spoken classes were a bit limited, but still enough to get 30 credits. The content was decent, although some lectures required less attention than others
Assistance at the university Student advisors, Mobility Office, mentors, contact with other students	Seemed to be okay, didn't take much advantage of this
Budgeting Living costs, study material, money transfer	Switzerland is a bit expensive, but if you don't travel too much I'm sure you can live on a decent budget
Living/ leisure Meeting places, sports, culture	Lucerne has a lot to offer, and if wanting too, you can easily get around to other parts of Switzerland
Comparison What is better/ worse at the University of Lucerne as compared to your home university?	My goal for studying abroad was more focused on traveling a bit, therefore I paid less attention to actual school work, and instead went travelling in and out of Switzerland. That being said, the school work was of a little less intensity than back home, but still a good learning experience

Reasons For what reasons are you aiming for a mobility period at the University of Lucerne?	To travel a lot, and wanted to get away from back home for a while, wherefore this was the perfect opportunity. And since Switzerland is located so centrally in EU, it is an optimal place to go, if you want easy access across Europe
Duration If you look back, was the duration of your stay for mobility	X to short <input type="checkbox"/> to long <input type="checkbox"/> precisely
